Careers in viticulture and wine

Activity 2
Explore careers and pathways
Years 7 - 10

The Australian grape and wine sector offers diverse career opportunities across many areas of the value chain including agriculture, viticulture, science, hospitality, business, and marketing – just to name a few.

There are also many different pathways into the sector.

- Explore the featured careers in the videos on the website and the videos in the virtual tour.
- Use the viticulture and wine information cards in this activity to choose up to six possible careers that are available across the wine sector value chain or come up with your own based on the videos you've explored.
- Use the video resources and links on the wine information cards to research each career. You may also choose to do your own research into careers and roles in the viticulture and wine sector.

The links on the wine information cards come from the following two websites:

- Your Career: https://www.yourcareer.gov.au/occupations
- Career Harvest: https://www.careerharvest.com.au/

You can also create a log in and explore careers on:

- My Future https://myfuture.edu.au/home

On the activity sheet provided:

- Record the name, qualifications, and possible expectations for the role you are researching, and
- Think about and list the skills that might be required to be successful in this career.

The links on the information cards will take you to the home page of the career website: we've provided the names of the careers you should search for (as they can be different across different sites). If any links are broken, please go directly to the main career websites.
